Congressional Matters.

"During the last week Hon. Geo. W. Barchelder has received calls from gentlemen, residing in other counties, requesting him to be a candidate for Congress on the Liberal ticket for this 2d District. Mr. Barchelder has not been and is not yet in the field, but he has said to his friends that if the Convention nominates him he will accept and do all in his power to secure his election. Mr. Barchelder is one of the ablest men of the State and seems to be the first choice of the Liberal Republicans. He would certainly make an able Representative."

The above extract is taken from the Fairbanks Democrat, and is decidedly good when taken in connection with the fact that Mr. Barchelder has been, and still is, "swinging" around the "circle" imparting every local politician there-in to support him for Congress, and send delegations favorable to his nomination to the district convention. Will the Democrat be as modest in its next issue, when advocating the claims of Mr. Barchelder?

The Proof Proved.

The recklessness with which Mr. Grant and Rose Cuckling accused Mr. Schuler of uttering an untruth when he stated the attempt to purchase his support of the San Domingo job, is singularly rebuked by the unquestionable proof now published which stamps the President and the Senator from New York as unscrupulous liars.

On Saturday, a letter to the N. Y. Tribune, says the letter quoted in his St. Louis speech, was addressed him by General Alfred Pleasonton, late Commander of Federal Cavalry. It was written Sept. 1862, in reply to a note from him in which I have memorandum which reads as follows:

"Ask Pleasonton whether he remembers the conversation he had with me concerning San Domingo, in which he said that I would support the President I could have all the patronage I wanted, etc., and ask him if he was authorized by the President to do so."

Gen. Pleasonton's reply is quoted in my speech. I have since received from Gen. Pleasonton the following note:

New York, July 25, 1872.
DEAR GENERAL:—Of course I have no objection to your giving my name to the people in explanation of the facts. I would say that, being a friend of the President as well as yourself, I desired you should be in good terms, and you could understand that there was no personal feeling in the way of relations mutually satisfactory. Your statement is correct that the President wanted my support for his San Domingo scheme and that you could have had the patronage of the Government for giving it. That was the distinct impression the President's conversation made upon me, and I communicated it to you at the time. If the President positively denies having had such a conversation, I regret it. I may console myself with the reflection that this is the first time that any statement of mine has ever been questioned, while the President has had occasion before this to distrust the accuracy of his recollections.

Truly yours,
(Signed) A. PLEASONTON.

Tom Murphy is out in a letter. He did not exactly give Grant the Long Branch cottage. He is sure of it. What he did do was to suggest to six other parties to put up \$5,000 each as a present, he making the seventh. This amount—\$25,000—they placed in a bank. Grant checked on the bank and bought the cottage. That was how it was.

Murphy seems the idea that it was a gift, but he makes no mention of how many of the donors besides him. If he were rewarded with office, he would be rewarded with office. He took his in the New York Custom House. If the balance of the names were known, we could tell what the rest received. It can safely be inferred that they were not forgotten.

If Mr. Greeley is elected, as he will be by an overwhelming vote, he will select from all parties such a Cabinet, and draw around him such men as the nation will place entire and implicit confidence in. Horace Greeley will not be a President of a section of the country, the creature of a clique, the automaton of a cabal. He will be the President of the American people, one and indivisible.

CARL SCHERER.

THE REFORM SPREADING.

Day by day, week by week, the great impulse of reform is spreading over the country, gaining strength as it advances, until it is as irresistible as an ocean stream. The most flattering reports come up from all sides—Maine responds to Texas, and Texas to Oregon. The people are everywhere awakening. They are joining the great Liberal army by brigades and corps. All the most intelligent and disinterested element of society is taking a part. We think here in Minnesota that we have done a grand work in the thousands who have publicly avowed themselves, as we certainly have; but we are yet far behind many other States. Even New England is responding in a way that shows how deeply the public mind is stirred, and how certainly the popular cause is gaining. Changes are so rapid as to leave no longer room for doubt. Mr. Greeley's election is already placed almost beyond contingency, and he will receive a greater electoral vote than was ever cast for any other President.

As the day of election approaches, the contest in North Carolina deepens in interest and intensity. The white vote of the State is almost a unit for Greeley. Grant has no strength outside of the colored population. To secure this list the mediaeval spectacles are made to ignorant, passion and miseries of personal corruption. Not one in five hundred can either read or write, and radicalism bases its entire hope of success on that fact. Intelligence is wholly ignored. To array the two races in opposition, and deepen the chasm between them, is the latest effort. Latest advances indicate that the scheme will fail. Nearly all the educated blacks are uniting with the white race and refuse to be made use of to inaugurate infernal war. It now seems certain that the Liberal party will achieve a great victory.

Civil Service Reformers are now underestimating and practicing at Washington, consisting in detaching a whole army of clerks and paid red-men, whose services have mainly consisted in drawing their salaries, to go out among the people and instruct them how to vote. One or two thousand have already been packed off on this mission, and Minnesota must expect to see her colored wanderers on the return. These gentry are horrible at a presumption that seeks to alter their sneers. They reason naturally, what have they been kept for but this very work. To lose their places is to be unemployed and starve. Lying by their labor, and their enthusiasm for Grant is just in proportion to the grade of salary, and probability of holding onto it. How long will the people bear with such a corrupt and rotten infestation? Honesty everywhere cries out against it.

One million five hundred thousand dollars is the sum levied on government clerks, printers, house officers, postmen and bankers to save the sinking funds of Grant. Desperate as the case is, the disbursement among a few needy editors and small politicians has had the effect to make them appear good natured, and go through the party pantomime in a kind of comic earnest way. While these payments are in progress, the former is running over the course with little real opposition. His supporters are not a class of men who can be influenced by money, nor do they need that incentive to give honest work to the cause.

Radicalism is having a sorry time of it in the State of New York. No less than six members of the Grant State Committee have come out publicly for Greeley and resigned their places. Several others are expected to follow. In St. Lawrence county, which gave Mr. Luntz over 7,000 majority, and Grant about the same, it is now conceded that Greeley will not be beaten over 1,500, and may even have a majority. Equally encouraging changes are recorded all over the State, as every action is sympathizing with the great popular uprising. The Liberals will carry New York by 75,000 to 150,000 majority, and Pennsylvania and Indiana promise to respond in the same way. The West must have on if it expects to compete for a share in these grand results. We owe it to honor not to be behind in such a race.

As administration takes its tone from the character of the President. If he is pure, honest, and truly great he will secure these qualities about him in the selection of advisers. If venal, and corrupt, he will inevitably draw to himself his old associates. If he sets a good example the effect will be felt over the whole country. He takes presents as a consideration for places, or fills the offices with personal relations and favorites. The standard of public virtue should be set up in the highest positions. Corruption breeds corruption, and when the land is depraved the body cannot be pure. His effect can only be seen in the degradation and prostration everywhere prevailing. Put Honest Greeley in the Presidential chair, and the change will be certain and speedy.

Payments for back subscription to the HERALD must be made at once. We are very much in need of money and are consequently obliged to cut off all those indebted to pay up.

Section.—We learn that on Wednesday of last week, Jacob Deitz of Watertown in this County committed suicide by cutting his throat with a carving knife. Mr. Deitz was the owner and operator of the brewery in that town and for years past has been doing a very prosperous business. There is no known reason for his committing the rash act, and it is believed it was the result of excessive drinking, which caused his insanity.

Some months ago, he attempted to kill himself in the same manner but failed, owing to a defect in the instrument he used. He had been watched since that time but his friends did not anticipate his intentions in time to prevent his death. He leaves a wife, and considerable property, but no children.

Section.—We notice a large crew of men at work upon the foundation of Messrs. Juenfelder & Faber's new store. It is 60 x 24, will have a glass front and be as good if not the best building in town when completed. The brick were purchased of Messrs. How & Sons, of their best manufacture.

Section.—During a severe thunder storm which raged here Monday afternoon the residence of F. Theis was struck with lightning but without any serious results. The fluid passed down the roof without damage to the building or injury to the person within, other than a slight shock.

Mr. Scherers building was also struck about the same time, with slight damage to the roof.

The Democratic District Convention for this 2d Congressional District will meet at Farmington the 5th of Sept. next. The Liberal Republicans will meet in mass convention at the same time and place to act in connection with the Democratic convention in the nomination of a candidate for Congress.

Judge Ebinger laid upon our table a specimen of the crop of wheat he is cutting near town, the finest we ever saw. The heads are over six inches in length, well filled. It is thought it will yield from thirty five to forty bushels to the acre.

RAIL.—Herman Briskhaus will give a picnic at Ulmer's Grove to be followed by a ball at his new building in town on the 15th of August. A general invitation is extended.

CHICKENS.—Messrs. Peck and Hecklin left this morning for the prairie on a chicken hunt, armed with dogs, guns and pistols. They are old hands at the business, and it is expected the feathers will fly.

Dr. S. D. Grant of Watertown has purchased the Drug Store and stock at that place from L. I. Lewis. The Dr. will keep a full stock and deserves a good patronage which he will receive.

The depot about which there has been so much difficulty has been finally located at Young America and not three miles from there as was expected. This is as it should be.

Depot buildings will soon be completed on the H. & D. R. R. at Benton.

County Seat Bill.

We publish this week the Bill passed at the last session of the Legislature for removal of the County seat, of this county.

It will be noticed that the bill provides for the issue of Bonds to the amount of \$120,000, payable in twenty years, with 10 per cent interest, payable semi-annually. It is an easy matter to determine that to erect County buildings at Benton such is this County requires would in the end cost the County not less than thirty thousand dollars, under this bill.

It will be remembered that Chaska has voted the issue of Bonds and proposes at the next meeting of the Board of Commissioners to present to them a deed of the present County buildings, giving them absolutely to the County so long as they shall be used for County purposes.

This we think will be perfectly satisfactory to the citizens and tax payers of the County, and dispense with any necessity of a vote upon the removal bill. With the heavy taxation the County has had in paying for the present buildings we do not believe the tax payers are anxious to increase without cause and necessity twenty years more of such taxation.

The Storm.

The severe rain and wind storm of last Monday evening, has occasioned a delay in the harvest, and will put the farmers to an additional expense for harvest hands, as the grain is badly lodged in some localities. Otherwise the storm did no damage in this county.

The Shakopee Mirror, established not long since, and supposed to champion the doctrines of the Democratic Liberal Republican party, has suddenly, shown indications of being weak in the knees and strongly inclined to support the St. Paul candidate for Congress in the district. Raise the flag at once and take a bold stand for Grant, Lee Strait and company.

Soldiers in Brainerd.

From the Brainerd Tribune, July 17.

On Thursday night last, in answer to a telegram sent by Sheriff Gurrell, a detachment of seventy-five soldiers arrived from St. Paul, on the train from the east, under the command of Captain Bunker. Upon their arrival they seemed somewhat surprised at finding but some half dozen solitary redskins getting out of town as they could at one end, as soon as they saw the soldiers coming in at the other. They landed on the platform at the Headquarters, and, after forming in rank and showing the citizens what they knew about Indian fighting, marched, four abreast, to Bly's Hall, where they took up their quarters for the night. The next (Friday) morning, fifty of the detachment returned to St. Paul, and the remainder are still here, awaiting further events.

Episode, Thrilling and Interesting at Saratoga.

A somewhat singular episode of real life occurred on the piazza of the Union Hotel the afternoon of the great race. A somewhat noted woman, formerly a singer of some prominence, while walking with her present husband, chanced to pass in her promenade directly between two of her former husbands. The three men, each of whom had loved the same woman, and who hated each other mortally, glanced at each other for a moment, the woman, in her beauty, her diamonds, and her airy summer dress, eyed all three curiously; there was a momentary pause, then the lady and her escort resumed their walk, the other men stepped forth in diverging directions, and the episode was over. There are ever and anon strange meetings at Saratoga.

SOCIAL HOP.

We had the pleasure of attending a social hop, on Wednesday evening last, in this village, gotten up and managed by Bruk & Willis, and which was a very pleasant affair in every particular. Shakopee, Carver and Chaska being largely represented.

The music was furnished by Sidwell's string band of Minneapolis and was excellent. The drinks of those present are certainly due to the managers who waited. We hope some of our citizens will see the propriety of keeping the thing up.

It will be remembered that Chaska has voted the issue of Bonds and proposes at the next meeting of the Board of Commissioners to present to them a deed of the present County buildings, giving them absolutely to the County so long as they shall be used for County purposes.

An Act

Providing for the Removal of the County seat of Carver Co. from Chaska to Benton in said County.

Be it enacted by the Legislature of the State of Minnesota.

SECTION ONE.
That the County seat of the County of Carver is hereby removed from Chaska to Benton, and located on the south west quarter of section twenty, (20), Township (115), one hundred and fifteen, (115), range (25), twenty five in said County of Carver, provided a majority of the electors of said county shall vote in favor thereof.

SECTION TWO.
In the notice for the election of officers at the general election in November 1872 it shall be the duty of the officers to also give notice, that at said general election, the question of the removal of the County seat of Carver County from Chaska to Benton in said county will be submitted to said electors.

SECTION THREE.
At said general election the electors of said county of Carver shall vote for or against the removal of said county seat as follows: The electors shall be printed or written, or partly printed and partly written on their ballots the words for removal of county seat from Chaska to Benton, or against removal of County seat from Chaska to Benton.

SECTION FOUR.
The ballots voted on the question of removal of county seat shall be deposited in a separate ballot box, and shall be on a separate ballot box. This separate ballot box shall be prepared by the judges of each election district, and said separate ballots on said county seat removal question shall be separately canvassed and counted but canvassed and counted at the same time, and in the same manner, and returns made to the same officers to whom returns are made for State officers.

SECTION FIVE.
If this act is adopted by a majority of the electors of said county of Carver, voting at said election at the next general election, it shall be the duty of the Governor to issue his proclamation to that effect, immediately after he is advised thereof. It is hereby made the duty of all officers, who are required by law to hold their respective offices at the county seat, to remove their said offices, books and records to the new county seat at Benton, within thirty days from the completion of the new county and public buildings, or after said public buildings are ready for occupancy without further notice and any failure to remove said offices shall operate as a forfeiture of their said offices.

SECTION SIX.
After the proclamation of the Governor of the State that a majority of the electors of said County of Carver has voted in favor of said removal of said county seat from Chaska to Benton, herein provided, it shall be the duty of the Board of Commissioners of said county, after the publication of said Governors proclamation, and then and there, after proposals for bids to erect a Court house and other necessary public buildings at Benton, and to contract therefor, and said Board are hereby specially authorized and empowered to provide means to pay for the same, either by levying taxes on the property of the owners thereof, or said Board, if they deem it most expedient, are hereby fully authorized and empowered to issue the bonds of said county to the amount of not less than ten thousand dollars, in a sum not to exceed twenty thousand dollars, to bear interest at the rate of ten per cent per annum, payable semi-annually in the City of New York or in the City of St. Paul, county of Ramsey and State of Minnesota, said bonds to be in denomination of not less than two hundred and fifty dollars to become due, and the principal payable in twenty years from the date of the issue thereof.

SECTION SEVEN.
The Board of Commissioners of said county are hereby authorized to employ some person or persons to negotiate said bonds and the proceeds of said sale of said bonds shall be applied to the payment for said public buildings and none other. It shall also be the duty of said Board of Commissioners to levy and assess annually a sum or sums sufficient to pay the annual interest on said bonds and to provide a sinking fund to meet and pay the principal of said bonds promptly as they shall become due. This act shall take effect as herein provided.

Approved, February 20, 1872.

What the Daisy Told Me.

By M. J. JORDAN.
I walked today in the meadow
With dew and daisy feet,
And the sweetest of flowers,
And I pulled them apart,
For I heard no new from home,
And my tears fell thick and fast,
And I thought of my mother,
The happy days of the past.
And a little daisy came whispering
These words to my listening ear,
"He is so busy with his work,
He has no time to write."
I gathered a new white daisy,
And I thought of my mother,
And I said to it as I went,
"With a heart so full of love,
Why do you not write to me?"
As out of my trembling fingers
I let the white leaves fall,
I said, "Oh, how lovely,
He loves me not at all."
But the daisy rustled in crimson tide
From my heart to my burning cheek,
And I said to it as I went,
"You came to me with heart and love,
Why do you not write to me?"

AGRICULTURAL.

Temperature of Insects.

Experiments have been instituted which throw considerable light on the temperature of insects. It is never below that of the atmosphere where they are found. The temperature of the body is considerably augmented while they are hibernating, and falls immediately when the humming stops. Muscular effort, therefore, develops heat. It is so also with all the air-breathing animals, but not in fishes, however excited in their conflicts or lights from enemies. In the case of the insects, the temperature of the body is mainly due to the increased temperature of their habitations. In a beehive it is really surprising to mark the rise of temperature. The thermometer is directed to the interior. Probably the peculiar fluidity of honey in the cells while remaining in the hive under their care, is in some way connected with the temperature, which the bees invariably maintain by closing every crack and seal through which air could enter or warmth escape, by the common doorway, which is guarded by vigilant sentinels. When the comb is removed the honey in a short time becomes more adhesive, thicker, and finally granulates.

Cutting Back Grape Vines.

A few persons are found in all grape-growing districts, and particularly among hot-house grape-growers, who practice the cutting-in system—as it is called—with a view of enlarging the size and hastening the maturity of the fruit. The process consists in pruning the wood of the current year—that is, producing the fruit—to within a few joints of the outer cluster, and doing it about the time the grapes have attained to two-thirds or nearly their full size.

The reason for doing it is based upon the supposition that the sap will pass into and nourish the growing shoot beyond the cluster, as it retained and kept back, the better to feed and nourish the grapes. It is a mistake, an error of judgment, in not understanding the true theory of the movement of sap in vegetable growth. If any attempt is made to cut in any of the beyond four or five joints, you will not cut out directly at the last bunch and thus let all the sap remain there and go into the cluster, and yet we know from trial that it will not do; for the grapes will increase no more in size, and if they mature at all, they will be sickly specimens of fruit.

Points in Bee-keeping.

There are a few facts in regard to the management of bees which, if well understood by apiarists, would make their occupation more pleasant and sure. By frightening bees with smoke or drumming on the hive, or by giving them liquid sweets, they are induced to fill themselves with honey, and are perfectly manageable.

The anger of bees is aroused by any quick motions made about their hives, by the sound of perspiration, or by impure breath.

Colonies that lose their queens will dwindle away, or be overpowered by bee-moths, or by robber bees, if they are not the most careful in making up.

Caned Fruits.

Every year about this time, and later, our exchanges are full of cases of poisoning, and the cause is almost invariably caned fruits containing metallic salts. The following statement of the dangers incurred in allowing the fruit to come in contact with any metal is of great value, and the recommendations given by the Boston Journal of Chemistry should be heeded by all:

"The impression prevails among all who use fruits freely, which are put up in tin cans, that they are injured thereby, and this impression is in many cases correct. We have long contended that all preserved fruits and vegetables should be stored in glass, and that no metal of any kind should be brought in contact with them. All fruits contain more or less of vegetable acids, and others that are highly corrosive are often formed by fermentation, and the metallic vessels are considerably acted upon. Tin cans are held together by solder, an alloy into which lead enters largely. This metal is easily corroded by vegetable acids, and the lead so formed is poisonous. Unluckily many persons are greatly injured by eating tomatoes, peaches, etc., which have been placed in tin cans, and we advise all our friends who contemplate putting up fruit for the present summer to use only glass jars for the purpose."

The Transit of Venus.

The transit of the planet Venus across the sun's disc will occur on December 8, 1874. This phenomenon, which is only to astronomer's eyes, is of great interest and physical history of the globe, has not occurred since 1754. At that early date Francis Baily, an English astronomer in India, and others in California and San Domingo, England, in South America, the Pacific coast, and Madras and Cambridge, and Russia at Yakutsk, Astoria, Germany and the United States, have already appointed observers for the occasion. The French minister of public instruction, in 1870 asked for men-of-stations of observation, and an appropriation of 300,000 francs. The French astronomer, M. J. Simon, has already submitted a proposition for an appropriation of 100,000 francs, with the understanding that 200,000 more shall be granted in 1874.

THE RACE FOR THE SARATOGA CUP.

Description of the Defeat of Longfellow by Harry Bassett.

From the New York Herald of Wednesday.

When Longfellow and Harry Bassett appeared, they were received with applause from the stand, and as the former galloped up in front of the stand the cheering was resumed. The assembly were very nervous, but there was no delay in getting the horses away. They soon moved down to the quarter pole, and at the first attempt were despatched to a capital start. Harry Bassett soon took the lead, and as he came rattling up the homestretch to the stand he led one length. Longfellow followed him closely, but there was no delay in getting the horses away. They soon moved down to the quarter pole, and at the first attempt were despatched to a capital start. Temperature of Insects.

Experiments have been instituted which throw considerable light on the temperature of insects. It is never below that of the atmosphere where they are found. The temperature of the body is considerably augmented while they are hibernating, and falls immediately when the humming stops. Muscular effort, therefore, develops heat. It is so also with all the air-breathing animals, but not in fishes, however excited in their conflicts or lights from enemies. In the case of the insects, the temperature of the body is mainly due to the increased temperature of their habitations. In a beehive it is really surprising to mark the rise of temperature. The thermometer is directed to the interior. Probably the peculiar fluidity of honey in the cells while remaining in the hive under their care, is in some way connected with the temperature, which the bees invariably maintain by closing every crack and seal through which air could enter or warmth escape, by the common doorway, which is guarded by vigilant sentinels. When the comb is removed the honey in a short time becomes more adhesive, thicker, and finally granulates.

Cutting Back Grape Vines.

A few persons are found in all grape-growing districts, and particularly among hot-house grape-growers, who practice the cutting-in system—as it is called—with a view of enlarging the size and hastening the maturity of the fruit. The process consists in pruning the wood of the current year—that is, producing the fruit—to within a few joints of the outer cluster, and doing it about the time the grapes have attained to two-thirds or nearly their full size.

The reason for doing it is based upon the supposition that the sap will pass into and nourish the growing shoot beyond the cluster, as it retained and kept back, the better to feed and nourish the grapes. It is a mistake, an error of judgment, in not understanding the true theory of the movement of sap in vegetable growth. If any attempt is made to cut in any of the beyond four or five joints, you will not cut out directly at the last bunch and thus let all the sap remain there and go into the cluster, and yet we know from trial that it will not do; for the grapes will increase no more in size, and if they mature at all, they will be sickly specimens of fruit.

Points in Bee-keeping.

There are a few facts in regard to the management of bees which, if well understood by apiarists, would make their occupation more pleasant and sure. By frightening bees with smoke or drumming on the hive, or by giving them liquid sweets, they are induced to fill themselves with honey, and are perfectly manageable.

The anger of bees is aroused by any quick motions made about their hives, by the sound of perspiration, or by impure breath.

Colonies that lose their queens will dwindle away, or be overpowered by bee-moths, or by robber bees, if they are not the most careful in making up.

Caned Fruits.

Every year about this time, and later, our exchanges are full of cases of poisoning, and the cause is almost invariably caned fruits containing metallic salts. The following statement of the dangers incurred in allowing the fruit to come in contact with any metal is of great value, and the recommendations given by the Boston Journal of Chemistry should be heeded by all:

"The impression prevails among all who use fruits freely, which are put up in tin cans, that they are injured thereby, and this impression is in many cases correct. We have long contended that all preserved fruits and vegetables should be stored in glass, and that no metal of any kind should be brought in contact with them. All fruits contain more or less of vegetable acids, and others that are highly corrosive are often formed by fermentation, and the metallic vessels are considerably acted upon. Tin cans are held together by solder, an alloy into which lead enters largely. This metal is easily corroded by vegetable acids, and the lead so formed is poisonous. Unluckily many persons are greatly injured by eating tomatoes, peaches, etc., which have been placed in tin cans, and we advise all our friends who contemplate putting up fruit for the present summer to use only glass jars for the purpose."

The Transit of Venus.

The transit of the planet Venus across the sun's disc will occur on December 8, 1874. This phenomenon, which is only to astronomer's eyes, is of great interest and physical history of the globe, has not occurred since 1754. At that early date Francis Baily, an English astronomer in India, and others in California and San Domingo, England, in South America, the Pacific coast, and Madras and Cambridge, and Russia at Yakutsk, Astoria, Germany and the United States, have already appointed observers for the occasion. The French minister of public instruction, in 1870 asked for men-of-stations of observation, and an appropriation of 300,000 francs. The French astronomer, M. J. Simon, has already submitted a proposition for an appropriation of 100,000 francs, with the understanding that 200,000 more shall be granted in 1874.

Through the Tunnel.

Riding up from Hanger,
On the "Eastern" train,
From a sick worker's shivering,
Both what is done and undone I fear;
Quite exhausted whistlers,
Heard, mumbled as we sped,
"A student fellow,"
"Tall and thin and swift."

Empty seat behind him,
No one of his side;
A pleasant smile,
Now the train both glides,
Enter gentle smile,
Enter gentle smile,

Official County Paper.

BY F. E. DU TOIT.

CHASKA THURSDAY AUG. 8 1872.

Democratic County Convention.

A Democratic County Convention of Carver County is hereby called to meet at Leader's Hall in Watertown on Saturday August 24th, 1872 at 11 o'clock a. m. for the purpose of nominating seven (7) delegates to represent Carver County in the Democratic State Convention to be held at St. Paul on Wednesday Sept. 4th 1872 and also in the Congressional Convention to be held on the 5th of Sept. at Farmington Des Moines County and further to nominate a candidate for State Senator and a candidate for County Auditor and to transact such other business as may properly come before the convention. The representation of the different townships will be the same as at the last County Convention.

The County Committee passed the following resolutions, viz: Resolved—That the Liberal Republicans of Carver County be and are hereby requested to meet in mass convention at Watertown on Saturday, Aug. 24th 1872 with a view to co-operate with the Democrats meeting in Convention at the same time and place in placing in nomination a candidate for State Senator and a candidate for County Auditor—the basis of representation in the joint convention to be fixed by a joint committee, consisting of five members of each convention.

ROBT. PATTERSON, J. THOMAS KERKER, F. WOMMER, J. C. CULLEN, JOS. WEINMANN.

The Second District Congressional Nomination.

The gentlemen whose names are now prominently before the district, as candidates for that nomination are Col. L. L. Baxter of this (Carver) County; Hon. Geo. W. Batchelder and Hon. Ara Barton, both of Rice county. Others have been mentioned but are considered as out of the contest. Now conceding these gentlemen to be each qualified for the position, which one do the surrounding circumstances point to as the person to nominate?

In this district the vote for Governor last fall, was for Gov. Austin 14,192; for Hon. Winthrop Young, 11,376; of these votes for Mr. Young the Valley counties of Brown, Carver, Le Sueur, McClelland, Redwood, Renville, Scott and Sibley furnished 5,920 or 464 more than half the entire democratic vote. The only counties which gave democratic majorities were Carver, Dakota, Le Sueur, Scott and Sibley, and which aggregated 17,264—all of which was furnished by the Valley except 215 by Dakota county.

Where then, are we to look for a change of votes sufficient (1500) to wipe out the 3000 majority of last year? We look for at least 1000 of them in this Valley—in fact we know that a greater change will take place, if the proper nomination is made. The only candidate presented by the Valley is Col. L. L. Baxter of this place. We say presented by the Valley, because we know that he will be the almost unanimous choice of the Valley counties—Liberal Republicans as well as Democrats. We ask our friends in the other counties whether, in view of the facts above stated, it is not good policy to accede to the choice of the Valley counties, in making this nomination? Col. Baxter will be the choice of those counties because he is considered by them as the one most likely to overcome that majority. The Republicans in their convention realized that the Valley was, in a great measure, to be the battle ground, and to secure all the advantage which they could, nominated Maj. Strait of Shakopee. Shall they be permitted to retain that advantage, by our nominating a candidate, who is unable to command the local support, by his personal popularity, that he should to defeat Strait? We hope not.

We admit we are a warm friend of Col. Baxter (all here are such) but we advocate his nomination on no such grounds; we do so simply for the reason that we believe him the most available candidate for many reasons, which we will not now stop to explain for want of space. We will say however, that we honestly believe Col. Baxter will go out of the Valley with one thousand more votes than either of his opponents.

We present these questions to the candid consideration of the Democrats and Liberal Republicans of this district. They become doubly important, when we remember that if we succeed it will be only by making such a battle as will overcome an odds against us, of from

three to four thousand.

In saying what we have, we are simply pleading for success. The opponents of the present administration, must know that the advocates of Col. Baxter's nomination (and they number some of the shrewdest and most observant politicians of the district) would not so strongly urge his nomination, were they not confident of success. They do not seek the empty honor of a nomination; they desire success. Shall we have it?

County Convention.

We publish this week at the head of our editorial column, the call of the Democratic County Committee for a County Convention, to be held at Watertown on the 24th day of Aug. next. It will also be seen from reading the call that the Liberal Republicans are invited to co-operate in the nominations. We will publish the Liberal call next week, which, when ready for publication, will astonish the natives.

North Carolina.

The election held there on the 1st of August for State officers, was extremely exciting in nature, and brought out an unusual vote, over 300,000.

The State last year gave 10,000 majority for the Republican ticket, but this year the tables are turned and the liberals carry the state by a small majority, elect 5 out of 8 congressmen and have a very large majority in both branches of the Legislature, ensuring the election of a U. S. Senator. Glory.

Mr. Greeley's Consistent Devotion to the Good of Mankind.

From the Boston Sunday Courier.

It has been much objected of late by certain Republican organs—hitherto glad to be named among the friends of the Tribune, and to which they compare as the bay of the sea to the notes of the sky-lark—that Horace Greeley is a man of whims and conceit, that his mind is rudderless, that he drifts with every wind of doctrine, whithersoever it will. Now this notion of Horace Greeley is partly made up of ignorance of the philosophy of editorial life. No man, were he Argus eyed and Iriarous-hand-ed, could he escape the charge of inconsistency in opinion as an honest and faithful editor if he knew how to have and express instant and daily judgment upon the events of the hour. A daily paper sees only that face of the fact which that day presents, and speaks of and to that and that only. So to say that the Tribune is whimsical, changeable, unreliable, is to utter the merest nonsense—unless you can say that it has changed in principle, in its notions of fundamental truth. You may change your raiment as often as you please, but the man clothed upon is the same. Now we affirm with boldness that the Tribune, and by that we mean Horace Greeley, has never for one hour—no, nor for one moment—been false or wavering in the love of country, the love of humanity, the love of progress in every way and for everybody—or has even for one moment faltered in its endeavors to make our noble land the freest, happiest, and best among the nations of the earth. You may sneer at the old white hat and coat if you will, but stand in utter nakedness beside Horace Greeley, and can you doubt to whom both God and man would give the palm? Only ignorant stupidity wears always the same stolid face; intelligence has many and different expressions.

North Carolina.

To show how important an influence this election will have upon the National Campaign we quote from a speech made by Mr. Wilson in North Carolina just before leaving the State.

"Give us a victory here and we carry twenty-seven of the States, I confess it fairly, if you republicans will give us a victory here, and there will be no more fighting. We will enter over the field. But if you allow a Democratic victory, you will put a burden on our shoulders which will make us stagger. We may stand defeat, but it will cost us months of labor and toil to recover, and it will also afford a substantial evidence that there is dissatisfaction with the administration."

These letters of Senator Sumner and General Banks, declaring for Greeley, are now being printed in pamphlet form, by the Liberal Republican Committee, and they will shortly be circulated to a large extent in all sections of the country. Sumner's letter has for a motto the following Scriptural quotation: "I will say to the North, give up; and to the South, keep not back."

—Gerritt Smith's son and nephew repudiate Grant and support Greeley.

Payments for back subscription to the HERALD must be made at once. We are very much in need of money and are consequently obliged to call on all those indebted to pay up.

Building.

Henry Young has finally determined to build a new store on the corner of second and chestnut street, and has not only already purchased the necessary material wherewith to erect the same, but has the cellar nearly dug. The building will be of brick one story above the basement, with an open store front, 25 x 60. It will be completed within a month.

Messrs. Linenfelser & Faber are driving work on their new store building. The cellar is completed and the first floor joists are already in place and they expect to have the first story up by the latter part of next week.

THE MILL.—Mr. Bachman raised the frame for the new mill last Saturday and it was accomplished safely. It is a heavy substantial frame, built in the best manner and will like the "rook of ages" stand forever.

After the frame was up, Messrs. By-hoffer and Moeschler were called upon and responded in short pithy speeches laudatory of the work, workmen and the builders, after which the crowd adjourned highly pleased with everything in general and the mill in particular.

PERSONAL.—Hon. C. H. Lineau of Watertown made our village a visit last week. Mr. L. is prominently spoken of in connection with the Senatorship.

Mr. John Dunn of Carver was also in town during the week, and we understand stated that he was also in the field for the same position.

Henry Kenning of Wisconsin, son of our fellow citizen Henry Kenning, is in town on a visit to his parents and friends. He has been absent seven years. He will remain one month.

Messrs. Hamlin, Schlerke, Grant and Helgreen of Watertown also made our calls during the week.

Dr. C. B. Ames, of Delano, Wright County, was in our village, the guest of Mr. Peck on Tuesday.

Judge Brown of Shakopee, was in town attending to professional duties during the week.

THE CROPS.—We are informed by Mr. Joseph Schaff, of Laketown, that harvesting is progressing as well as could be expected, taking into consideration the scarcity of harvest hands. He states that the yield of wheat, oats and barley will be good, beyond an average yield. Corn looks very good and will yield well, if we do not have too early frost.

ROBT. PATTERSON, Chairman.

NOTICE.—Henry Young requests us to state to the citizens of Carver County, that after many and urgent solicitations from his many friends, he has concluded to again enter the field for public favors as a retail dealer in general merchandise, and that he will open out with a large stock in his new store on or about the middle of September next, and requests a share of his former patronage and such new customers as may deem best to give him a call. Henry means business.

ASTOUNDING.—The few political squibs that appeared in a recent number of the GLENCOE REGISTER, in regard to the Greeley sentiment in Carver and Carver County. Why friend Hall you are writing about something that you know nothing about, or else you are making a d—m—oss of yourself. Come down here and we will show you Greeley republicans by the score. Will you?

TRIAL.—A case wherein Gerhard Niehaus is plaintiff and the estate of the late Franz Henry Niehaus defendant, was on trial before the Probate Court for several days during the week. Result unknown to us. The suit involves several thousand dollars; hence the interest taken.

CRONK BEER.—Mr. Korker has just received a supply of Cronk Beer from Minneapolis and will keep it constantly on hand for sale hereafter. Give him a call.

Correspondence.

COMPLIMENTARY.—We are pleased to acknowledge the receipt from Messrs. Henderson Bros. of the celebrated "Anchor Line" Steamers, an invitation to participate in a grand excursion to Long Beach, which is to leave Pier No. 29, N. Y. City on the 14th inst. in their splendid new steamer "California." Of course we cannot accept the invitation, but nevertheless appreciate the kindness of Henderson Bros. of that popular line the "Anchor." How, Strait & Co. agents.

FOREIGN DRAFFS.—Any person wishing to remit money to any part of the "old world," can do so by calling upon How Strait & Co. Bankers, who issue their own sight drafts upon any country. Give them a call.

IMPROVING.—Mrs. A. H. Holmes of Pittsburgh Pa. who has been in Minnesota for the last few months, and visiting her relatives at this place, is we are glad to say much improved in health, by the time she is ready to return home in October, she will be in robust health, and the people back home will hardly recognize her.

FAIR.—The Carver County agricultural Society, will hold their annual fair at Carver on the 20 and 21st of September. The Secretary, Mr. Frank Warner informs us that they have procured the large blue ware house of Mr. Holmes which when fitted up will make an excellent place for the fair. We were so informed by the Secretary that parties who receive premiums will get them 10 days after they are awarded. The Society has secured some splendid diplomas in blank, through some photograph house in St. Louis. We should judge the Sect'y. had been busy at work.

A fresh supply of cigars at G. A. Du Toit's Drug Store.

GOON.—John Bloedel has shown us a specimen of what he calls a wine apple, it is certainly a splendid looking apple, and our fruit men here should raise more of them.

ACCIDENT.—E. Holmes met with quite an accident about 10 days ago. He was engaged in hitching up his team when one of his horses kicked, and struck him just above the eye, cutting a bad looking gash. Dr. Lewis dressed the wound and Enoch is all right again. It was a lucky escape.

DEAD.—A young child of John Sundine died last week, after quite a long spell of sickness. The funeral took place on Tuesday. Rev. P. Carlson officiating.

POLITICAL.—We understand that John Dunn of this place and C. H. Lineau of Watertown are candidates for the Senate this fall.

PERSONAL.—Daniel McIntosh Esq. of Wilmington Ill. is on a visit to his daughter, Mrs. E. Holmes. The old gentleman is now in his 82 year, and is quite smart yet, good apparently for 10 years longer. He will remain here a few weeks, when he will return home.

R. B. Langdon was called home last week, his youngest child lying at the point of death, and since died.

Jas. Ryan, Peter Ute, P. Linenfelser, H. J. Peck, F. E. Du Toit, F. James, Robt. Patterson, L. Streukens and C. H. Lineau, called during the week, all were feeling good, as they should.

Judge Chatfield and family were in town on Friday.

IMPORTANT R. R. NEWS.—We are informed by H. B. Willis Esq. of the H. & D. Road that orders have been rec'd. to have the road in running order to Glencoe by Sept. 1st.

This is important and good news to the up country.

An Act

Providing for the Removal of the County Seat of Carver County from Chaska to Benton.

Be it enacted by the Legislature of the State of Minnesota.

SECTION ONE.

That the County seat of the County of Carver is hereby removed from Chaska to Benton, and the date of the election to also give the name of the Township (115, one hundred and twenty-five) Township (115, one hundred and twenty-five) in said County.

SECTION TWO.

In the notice for the election of officers in the general election in November 1872 it shall be the duty of the officers to also give the name of said general election, the question of the removal of the County seat of Carver County from Chaska to Benton is said county will be submitted to said electors.

SECTION THREE.

At said general election the electors of said county of Carver shall vote for or against the said removal of said county seat as follows: The ballots shall be printed or written, on printed paper and partly written, on their backs, the words for removal of county seat from Chaska to Benton, or against removal of County seat from Chaska to Benton.

SECTION FOUR.

The ballots voted on the question of removal of county seat shall be deposited in a separate ballot box, and shall be on a separate ticket. This separate ballot box shall be prepared by the judges of each election district, and said separate ballot on said county seat shall be counted but canvassed and counted at the same time, and in the same manner, and returned to the same officers to whom returns are made for State officers.

SECTION FIVE.

If this act is adopted by a majority of the electors of said county of Carver, voting at said election at the next general election it shall be the duty of the Governor to issue his proclamation to that effect, immediately after he receives thereof. It is hereby made the duty of all officers, who are required by law to receive and forward to the County seat, within thirty days from the completion of the new county seat, the public buildings, or after said public buildings are ready for occupancy without further notice, and any failure to so remove said offices shall be a forfeiture of their said offices.

SECTION SIX.

CHASKA, THURSDAY, AUG. 8 1872.

Democratic County Convention.

A Democratic County Convention of Carver County is hereby called to meet at Leader's Hall in Watertown on Saturday August 10th 1872 at 11 o'clock a. m. for the purpose of nominating seven delegates to represent Carver County in the Democratic State Convention to be held at St. Paul on Wednesday Sept. 4th 1872 and also in the Congressional Convention to be held on the 5th of Sept. at Farmington, Dacotah County and further to nominate a candidate for State Senator and a candidate for County Auditor and to transact such other business as may properly come before the convention. The representation of the different townships will be the same as at the last County Convention. The County Committee passed the following resolutions, viz:

Resolved—That the Liberal Republicans of Carver County be and are hereby requested to meet in mass convention at Watertown on Saturday, Aug. 10th 1872 with a view to co-operate with the Democrats meeting in Convention at the same time and place in placing in nomination a candidate for State Senator and a candidate for County Auditor—the basis of representation in the joint convention to be held by a joint committee, consisting of five members of each convention.

The Second District Congressional Nomination.

The gentlemen whose names are now prominently before the district, as candidates for that nomination are Col. L. L. Baxter of this (Carver) County; Hon. Geo. W. Batchelder and Hon. Ara Barton, both of Rice county. Others have been mentioned but are considered as out of the contest. Now conceding these gentlemen to be each qualified for the position, which one do the surrounding circumstances point to as the person to nominate?

In this district the vote for Governor last fall, was for Gov. Austin 14,192; for Hon. Windrop Young, 11,376; of these votes for Mr. Young the Valley counties of Brown, Carver, Le Sueur, McLeod, Nicollet, Redwood, Renville, Scott and Sibley furnished 5,920 or 464 more than half the entire democratic vote. The only counties which gave democratic majorities were Carver, Dakota, Le Sueur, Scott and Sibley, and which aggregated 1726—all of which was furnished by the Valley except 215 by Dakota county.

Where then, are we to look for a change of votes sufficient (1500) to wipe out the 3000 majority of last year? We look for at least 1000 of them in this Valley—in fact we know that a greater change will take place, if the proper nomination is made. The only candidate presented by the Valley is Col. L. L. Baxter of this place. We say presented by the Valley, because we know that he will be the almost unanimous choice of the Valley counties—Liberal Republicans as well as Democrats. We ask our friends in the other counties whether, in view of the facts above stated, it is not good policy to accede to the choice of the Valley counties, in making this nomination? Col. Baxter will be the choice of those counties because he is considered by them as the one most likely to overcome that majority. The Republicans in their convention realized that the Valley was, in a great measure, to be the battle ground, and to secure all the advantage which they could, nominated Maj. Straits of Shakopee. Shall they be permitted to retain that advantage, by our nominating a candidate, who is unable to command the local support, by his personal popularity, that he should defeat Straits? We hope not.

We admit we are a warm friend of Col. Baxter (all here are such) but we advocate his nomination on no such grounds; we do so simply for the reason that we believe him the most available candidate for many reasons, which we will not now stop to explain for want of space. We will say however, that we honestly believe Col. Baxter will go out of the Valley with one thousand more votes than either of his opponents.

We present these questions to the candid consideration of the Democrats and Liberal Republicans of this district. They become doubly important, when we remember that if we succeed it will be only by making such a battle as will overcome an odds against us, of from

three to four thousand. In saying what we have, we are simply pleading for success. The opponents of the present administration, must know that the advocates of Col. Baxter's nomination (and they number some of the shrewdest and most observant politicians of the district) would not so strongly urge his nomination, were they not confident of success. They do not seek the empty honor of a nomination; they desire success. Shall we have it?

County Convention.

We publish this week at the head of our editorial column, the call of the Democratic County Committee for a County Convention, to be held at Watertown on the 24th day of Aug. next. It will also be seen from reading the call that the Liberal Republicans are invited to co-operate in the nominations. We will publish the Liberal call next week, which, when ready for publication, will astonish the natives.

North Carolina.

The election held there on the 1st of August for State officers, was extremely exciting in nature, and brought out an unusual vote, over 300,000.

The State last year gave 10,000 majority for the Republican ticket, but this year the tables are turned and the liberals carry the state by a small majority, elect 5 out of 8 congressmen and have a very large majority in both branches of the Legislature, ensuring the election of a U. S. Senator. Glory.

It is now said that orange is the proper color for spectacles for persons with weak eyes, instead of blue or green.

WHITE VEILS are very fashionable in Paris, and, of course, will soon be here. They are made with plain white tulle dotted with lace.

TOMATO plants grow to be eighteen feet high in California, and behold, the birds of the air build their nests in the branches thereof.

The highest office within the gift of the Government is the superintendency of the weather signal station on Pike's peak, which is 14,000 feet above the sea level.

SONOMA county, Cal., is a convenient place for trout fishing and cooking. One can catch your fish in Sulphur brook, and cook it in a hot spring within arm's length.

ALEXANDER DUNCAN, formerly of Providence, R. I., but now resident of Providence, celebrated the Fourth of July by donating \$10,000 to the Providence free library.

The druggists say the demand for fly-paper this summer is unprecedented, and housekeepers say there never was such a great swarm of flies.

TO LIVINGSTON!

"In Africa with low land far lot,
Where some shine but not some brother,
Where even the very Helliond,
One was gone Hell-and-fetter."
The proprietor of Lammert's former residence at Macon has sold, in the last two years, to American travelers, over 4,000 quilts with which the late Martin wrote his "Wokeyn."

A MAN in Indiana attempted to dislodge a nest of skunks under his barn, five days ago. He has since been obliged to decline all invitations to dinners, quills, funerals, and other festivities.

QUITE a number of Northern people have gone South to get rid of the oppressive heat, for it is a fact that the thermometer does not rise as high in the Southern as in the Northern states.

A GENTLEMAN who had been arguing with an ignorant till his patience was exhausted, said he "didn't wish to see him again dead, but would be glad to see him grow more."

An English chemist avers that the manufacture of wine is now conducted on such highly scientific principles that the vineyard is gradually being dispensed with.

A new attachment is now being made to Colt's armory, Hartford, Ct., for discharging gun, by which 400 shots are discharged per minute.

In a recent contest in Yorkshire, England, for Parliament, the exports of the successful candidate were \$33,615, and those of the unsuccessful one \$42,738.

A gray hair was noticed among some raven locks of a fair friend of ours a few days ago. "Oh, pray pull it out," she exclaimed. "If I pull it out you will owe me the funeral," replied the lady who made the "unwelcome" discovery. "Poke it out, nevertheless," said the dark haired damsel. "It's no sort of consequence how many come to the funeral, provided they all come in black."

A WOMAN in Athens, Ga., was zig-zagging along the street the other day under an overload of merchandise—sitting and think—a good samaritan offered to carry her goods for her. "Thank you, (hic) Mister," said the grateful dame. "I could carry—(hic)—everything I've got, if it wasn't for the curse—(hic)—on my feet." They hurtled on, but, fairly make my—(hic)—head swim.

The New York Mail tells the following interesting little dog story: "An shepherdess in Somerville, Mass., has a Scotch borderer which had the singular fortune, once or bad, to be brought up in a family of kittens, and he retains such affection for his early playmates that he seizes every kitten he can find and tenderly carries it home. As they are generally claimed or sent back, he is engaged in a continued effort to accumulate a family of kittens to make his home happy."

The Indianapolis Journal informs us that the connection which has existed for years with the Toledo, Wabash and Western railroad at Lafayette has been broken, and the through route via Lafayette has been abandoned and the tickets by this line have been withdrawn. A new route has been formed by way of Danville, Illinois, over the Western railroad. The time by the new route is four hours shorter than by the old for Kansas City and the west.

CHASKA THURSDAY AUG. 15 1872.

Democratic County Convention.

A Democratic County Convention of Carver County is hereby called to meet at Leader's Hall in Watertown on Saturday August 24th 1872 at 11 o'clock a. m. for the purpose of nominating seven delegates to represent Carver County in the Democratic State Convention to be held at St. Paul on Wednesday Sept. 4th 1872 and also in the Congressional Convention to be held on the 24th of Sept. at Farmington, New Hampshire and to transact such other business as may properly come before the convention. The representation of the different Townships will be the same as at the last County Convention. The County Committee passed the following resolutions, viz: Resolved—That the Liberal Republicans of Carver County be and are hereby requested to meet in mass convention at Watertown on Saturday, Aug. 24th 1872 with a view to co-operate with the Democrats meeting in Convention at the same time and place in placing in nomination a candidate for State Senator and a candidate for County Auditor—the basis of representation in the joint convention to be fixed by a joint committee consisting of five members of each convention.

THE STRAIT ORGAN.

The Shakopee Mirror responds to our item of last week, in the editors usual style of vulgarity. We do not propose to respond in kind. To A. J. Clark the members of the craft, concede the inevitable credit, of being without an equal in the State (or out of it) of "flinging manure"—as one of them has expressed it. To compete with him, in that line, we would not if we could. Our notice of him has however had the desired effect, which was, to make him show his colors as a Maj. Strait organ; for he jumps to the conclusion at once, that we referred wholly to his action on the Congressional nomination when we did not. We referred more particularly to his contemptible fling at such men as Gen. Sherman and Judge Goodrich and Hon. M. S. Wilkinson, and the general tone of his paper which showed that he was not at heart with the Democratic Liberal party; and "the that is not with us is against us." In his last issue Hon. I. Donnelly comes in for one of his peculiar notices, and we expect to find him noticing in the same manner any Republican, who has the manly independence to cut loose from the Grant party.

So far as his "flings" at Col. Baxter are concerned, all we propose to say is, that had that gentleman taken the hint, when informed by the editor of the Mirror, that he (Clark) had obligations to the amount of two hundred dollars which he wished to have cancelled, we have no doubt but that Col. Baxter would have been regarded by him as fit in every respect for the position of member of Congress. But as Maj. Strait is willing to give him a good deal more than that, to defeat the nomination of Col. Baxter, we concluded that the roving editor of the Mirror, found a "taker" nearer his temporary home. It is barely possible however that Maj. Strait may discover after election that he paid pretty dearly for his whistle. The fact is that there is not one democrat of any prominence, in Scott County who is opposing Col. Baxter, and nearly all of them are advocating his nomination, believing him to be, of all named, the candidate, that will poll the largest number of votes. This is a fact we know, as we claim to be as well acquainted in Scott County as the aforesaid A. J. Clark, and we state these facts that others outside of Scott County may not be misled by the squibs of the Mirror.

Hon. G. W. Batchelder, of Fairbairn, seems now likely to carry off the Democratic nomination for Congress, in this district. He is one of the ablest men in the State, and his character for honesty and integrity is unimpeachable. In point of intellect, and availability, he is, in our humble opinion, head and shoulders above any candidate yet mentioned, except, perhaps, Hon. Segrave Smith, who, we hear, is now out of the field, and favoring Mr. Batchelder's nomination.

Ha! Ha!! We have finally smoked the "cat" out of his hole. The advocacy of the nomination of Mr. Batchelder by A. J. Clark, is simply a part of his bargain with Maj. Strait. It is only a cover to his real design. He is owed

body and breeches by Maj. Strait. We have no doubt, but that the sterling democracy of Scott County will shortly administer such a rebuke to this venal renegade, as will settle his status among the masses of the Democracy of old Scott.

Shameful Partisanship.

The Grantites, in their desperation, will spare no efforts to impose upon the credulity of ignorant people. Witness the following dispatch from Washington which appears in the Chicago papers, with startling headings:

The Confederate archives, now in possession of the Government, are revealing the true record of several prominent Northern Democrats, such as Buckalew, Hendricks and Pendleton, during the late civil war. Documents have been found which show that there was collusion between these men and the Confederate Government, to incite open resistance to the draft law, and embarrass the United States Government as much as possible in raising troops to suppress the rebellion. Several letters among the archives speak of ex-Senator Buckalew as a leader in the movement, and as doing all he could to aid the Confederate cause, by secretly advising Democrats in various parts of Pennsylvania to oppose the draft by forcible means. Memoranda among these papers refer to certain letters written by Buckalew, Hendricks and others, to Confederate authorities, and thorough search is now being made to find these original letters.

Every intelligent reader knows that the above is a pure fabrication, and intended for the purpose of injuring Messrs. Buckalew and Hendricks, candidates for Governor in Pennsylvania and Indiana. These gentlemen throughout the war, were known as "war Democrats," and had no collusion or sympathy with the Confederates, nor any intercourse whatever with the enemy. This infamous attempt to blacken their reputation only shows the desperate straits to which Grantism is reduced.

Greely in Minnesota.

The Minneapolis Times, a spicy Greeley republican paper, shows from the record, that ten per cent. of the Republican members and officeholders of the last legislature; ten per cent. of the Republican newspapers; and at least ten per cent. of prominent Republicans of the State, are for Greeley, and adds: But we have strong evidence that the disaffection is much greater than ten per cent. In this city it is known to be three times that, also at St. Paul, Mankato, Austin, Owatonna, Winona, Rushford, Wells, Wadena, City, Hastings, Red Wing, Parkville, and other points. Over three thousand names of Greeley have been published, and these nearly all in the older portions of the State. Owatonna, which in 1870 gave Grant 199 majority in a vote of less than 400, has organized a Greeley club of 170 members. And so it goes all over the State, and the evidence accumulates that with proper exertions the electoral vote of Minnesota will be given for Greeley and Brown.

Enormous Expenditures.

The enormous and useless additions made to the ordinary expenses of the government will be apparent from the following official figures:

	1860.	1871.
War.....	\$16,472,202	\$44,000,985
Navy.....	11,514,649	19,431,027
Indians.....	2,991,121	7,426,997
Miscellaneous	27,977,978	60,481,916

The regular army in 1871 does not number 5,000 more soldiers than in 1860. The commerce of the United States in 1860 was greater than that of England, but the navy was small. Now we have no shipping, and our naval expenses are nearly doubled. In 1860 the government had forty thousand Indians on its hands, and no railroads to reach them. Now it has but twenty-five thousand, who are easily accessible, and they cost more than twice as much as formerly. All these additions are the result of things that surround Grant, and use him to effect their schemes of plunder.

What a solemn thing it would be if the people of this country should agree to forget the bitterness and strife growing out of the last war, and make up their minds to hereafter live in harmony. How sad it would be to disappoint the hungry crowd who have so long fed on them, to find that the issues of this canvass are distinctly issues of peace and good will to laboring men. What a calamity would befall the country if, instead of fighting over old battles, such questions as reducing the tariff, improving the currency, paying the debt, and giving to industry a part of its earnings, should be taken up for discussion. How unbecomingly to talk of the actualities and needs of this day, instead of going back ten years for a subject to quarrel over. Such a change of programme promises to break the radical heart.

NOTICE.

Payments for back subscription to the Herald must be made at once. We are very much in need of money and are consequently obliged to call on all those indebted to pay up.

RAILROAD ITEMS.—We are informed from headquarters, that orders have been issued, to have the track laid and the road completed to Glenwood on or about the first of September next. And to that end Mr. Prescott, is pushing the work along as rapidly as circumstances will admit.

The Depot at Young America has been located and surveyed, at the Paxton crossing, and depot buildings will be erected at once.

We are also informed that an elevator will be erected somewhere near Anton Fritz's place in Dahlgreen, and one at Benton. There will be lively times in the grain line along this road, after the trains commence regular trips. It will be a great benefit to the farmers.

We are in receipt of a copy of the Jordan Play, printed and published by J. L. Barlow. It is small in size, but will probably grow in importance as it grows venerable.

THE STREAM MILL.—It is now officially announced that the steam mill has changed hands, that Messrs. How, Strait & Co., of Shakopee are the purchasers.—And we are informed by Mr. How, that the mill will be put in repairs and be ready for business as soon as the new wheat crop is ready for market. They will run it to its full capacity. Jo. Strait of Jordan, will have the business charge of the mill.

THE WATER MILL.—Work on this new business enterprise is progressing as rapidly as could be expected. The dam is about completed, and the millwright is putting in the mill machinery. The celebrated Leffel Double Turbine wheel has arrived and will soon be placed in its proper position. Mr. Bernatz informs us that he will be ready for the new crop. Good.

BUSINESS.—Business is very quiet at the present time, owing to harvest. We expect a better time "coming."

PERSONAL.—Maj. Strait of Shakopee and Joe Strait of Jordan, were in town on business on Saturday last.

Equire Miller of Benton, made us a pleasant call last week.

GREAT IMPROVEMENT
IN THE
Wheeler & Wilson
SEWING MACHINE.
Buy it because it will do better work in one-fourth less time than any other machine, and because, as recently improved, it is much easier learned than any other.

No Change of Tension
Necessary in sewing different thickness. Neither the threads nor the cloth require holding. Seams are creased with ease, and the work guided with scarce an effort.

Wheeler & Wilson
Has no under tension to manage, every joint can be tightened as fast as it wears. Has the best and most readily adjusted attachment, runs very easy, has nearly double the former power, and is the handsomest and best constructed machine before the public.

CHASKA THURSDAY AUG. 22 1872.

THE STRAIT ORGAN.

In an article last week, we demon-
strated to the candid mind, the reason why
the roving editor of the Shakopee Mir-
ror, opposes Col. Baxter's nomination—
And we therein simply stated facts,
which we are ready to substantiate at
any time—furthermore we know of our
own knowledge, that Col. Baxter, while
in Shakopee, never once called upon Mr.
Clark, and to the contrary, we can prove
that Mr. Clark has called upon Col.
Baxter, in Chaska, on three different
occasions, and with the evident intention
of bleeding the Col. Further more he
has stated in this office on
one of those visits, that he had been of-
fered \$1,000 or the position of District
Attorney of New Mexico, in return for
his support, and that he wasn't so d—m
certain but he should accept the offer.
Now as far as his reported conver-
sation with Col. Baxter is concerned, it is
a falsehood, manufactured out of whole
cloth. Those who know A. J. Clark,
know him to be a cold blooded and un-
principled, and simply a "rascal" who
after sucking the hearts blood from his
best friend will then desert him without
cause or reason.

Thin Soft Soap.

The old time Democrats all over the
country are clamoring for an opportunity
to vote for a Democrat for President
and to save their self respect and their
principles by voting for a representative
of Democratic principles.—St. Paul
Press.
Wonder if their is an "old time Dem-
ocrat" whose eye may fall upon the
above, who will fail to see the point. The
"self respect" and "principles" so recent-
ly discovered by these Grant hypocrites,
was a short time ago "treason," "cop-
per headism," &c. Even the confederate
cut-throat Mosby, is now a "brave
hero and gentleman" in the estimation
of the administration editors—because
he supports Grant. Such "soft soap" is
entirely to this, "Joseph."—Charfield

A Disgraceful Spectacle.

A Disgraceful Spectacle.

The sub-committee of Invention and
Manufacture, attached to the Grant
national committee and its subordinates
in each State, it is reported are having
blank affidavits printed, which can be
filled out with whatever new lie any sec-
tion is supposed to need or the occasion
calls for, as the work of writing has
grown too slow and laborious. Any one
wanting to make a new charge against
Greely has only to fill in the blanks,
and he will then have his name pub-
lished all over the country as an "inventor
and distinguished citizen of incorruptible
purity and integrity." This plan is
highly popular in jails and penitentiaries,
and keeps the radical press in a con-
dition of glorious ecstasy. The blank
edition is large enough to supply every
State, and was printed at the national
expense.

OUR P. M. COMPLIMENTED.

From the Chicago Tribune, Aug. 17,
The Postmaster of St. Paul, Minn.,
is paid \$4,000 a year for writing this
sort of paragraphs, and his business
partner is paid another \$4,000 a year to
superintend the printing of them.
Lyman Trumbull has got so low as
this: In a recent speech at Waukegan,
Ill., he said, "Grant keeps \$100,000,
000 in the Treasury; if this is not to
be used?" *Ex parte Berchem*. If any
body wants a gauge wherewith to mea-
sure Lyman Trumbull, he will find it in
this suggestion. If this man is not the
patriot and meaneast of demagogues,
what is he?

**A RECRUIT FROM NEW HAM-
PSHIRE.**

Ex-Congressman Tappan for
Greely.

Hon. Mason W. Tappan, of New
Hampshire, a life-long Republican, has
written a letter in favor of Horace Gre-
ley. He says:
I have no hesitation in saying that
I intend, to the best of my ability, to
support Horace Greely for the Presi-
dency. I cannot stop now to go at length
into the details, but in due time I pro-
pose to give the reasons for the faith
that is in me. I may say briefly, how-
ever, that in taking this course I follow
the best convictions of my own judgment,
barring no jot or tittle of my Republican
faith. * * * I cannot refrain from
saying that the personal respect I enter-
tain for Mr. Greely, and the confidence
I have in him, assure me that should
the movement of which he is the head
triumph in November, every just expec-
tation will be realized, and every prom-
ise of reform faithfully carried out. I
know Mr. Greely well, and notwith-
standing the bad taste manifested by
some of those for whom he has furnish-
ed ideas for the last quarter of a century,
in affecting to ridicule him as a candi-
date, I regard him, and long have so re-
garded him, not only as the most thor-
ough honest man I ever knew, but as
one of the very ablest men in the coun-
try. There are other questions that I
might refer to which have weight with
me, but this letter is already longer than
I intended. And, asking you to excuse
the haste in which it is written, I am,
very truly, your friend and obedient ser-
vant,
MASON W. TAPPAN.

The Prospect in Connecticut.

From the New Haven Register.
We congratulate the friends of the
Cincinnati candidates upon the prospect
in Connecticut. That the electoral vote
of the State will be cast for Greely and
Brown is already certain. Many thou-
sands of staunch Republicans have already
declared for reconciliation and reform,
and the number is constantly increasing.
They can and will place the Grant party
in a hopeless minority in November. On
the other hand, there is no division in
the Democratic ranks. It is true that
Mr. Bond has spoken at a Grant meet-
ing, but he is one out of over 50,000.
The only doubt in Connecticut will be
whether the majority for Greely shall be
over 5,000. We are confident that it
will exceed that number.

**The Indian Troubles in Utah—
Military Operations.**

SALT LAKE, AUG. 17.—Three com-
panies of United States troops left this
morning for the field of Indian dangers
in San Pete. The cavalry arriving to-
day from the line of the Union Pacific is
hundred on. A fourth company of cav-
alry is ordered by Gen. Ord to this city
to keep the roads open. General Ord
on Monday for the scene of operations.
J. D. Page, telegraph operator at Mt.
Pleasant, was attacked last night by in-
dians when leaving his office and terri-
bly wounded in head by a tomahawk—it
is supposed fatally.

Thank God.

At the close of the Revolution, Geo-
rge III. desired his Chaplain, to return
thanks to God.
The Chaplain replied, "Sire do you
wish me to thank God that you lost so
many troops?"
"No."
"Do you wish me to thank God be-
cause you have lost so many million ster-
ling?"
"No."
"Do you wish me to thank God be-
cause you have lost thirteen of your
best colonies?"
"No."
"Then what do you want to thank
God for?"
"I want to thank God because it is no
worse."
So it is with the radicals. They fire
salutes over North Carolina, and thank
God that it is no worse.

We hear a good deal said of late about
"Johnson's administration." But the
fact is Johnson had no administration,
Congress so far usurped Executive
functions that he was not even permitted
to choose his own Cabinet, or appoint or
remove from office, or carry out any
policy or purpose of his own. He was
forced, indeed, to accept and be respon-
sible for the acts of men who obeyed his
opponents and defied his authority. Grant
himself was, for a season, his Sec-
retary of War, and not only endorsed
and approved his policy, but made
trips over the country to give moral
support to it. Nor did he change his
mind until radical leaders thrust the
Presidency in his face. Then he lost
no time in betraying his old chief, and
added to his baseness and ingratitude
the sin of lying about it.

—The total valuation of railroad prop-
erty in Iowa is \$18,350,661, an average
of about \$6,000 per mile.

—About \$300,000 arrive at Salt
Lake every week in the shape of silver
bullion.

A Disgraceful Spectacle.

The spectacle of the cabinet of a great nation, turning out to be a country electioneering for votes to retain its members in place—meeting only at long intervals at the seat of government to compare notes, devise fresh tricks, and count what money has come into the treasury, and what has been expended, for the purpose of campaign purposes without discovery, is something that nothing short of a Grant could have accomplished. Hereafter it has been known in our history, and is a more shameful performance than that which has been possible for any one to have conceived of in advance of the demonstration. If Congress cannot put an end to such a disgrace, what object is there in having any such branch of government? Degradation has now touched bottom.—Pioneer.

Dreams and Realities.

BY FRANK CARL.

[The following poem is the last one sent by Phoebe Cary to Harper's Bazar. The Bazar says: "It is the song of the living, young, tender, and sweet, and beautiful."]

O, Rosewood, thou fair and good,
And perfect flower of womanhood,
Thou royal crown of June,
Why didst thou drop from my time?
Why didst thou drop from my time?
Why didst thou drop from my time?

For, looking backward through my tears
On thee, and on my wasted years,
I cannot choose but say,
Why didst thou drop from my time?
Why didst thou drop from my time?
Why didst thou drop from my time?

Child of light, O golden head—
Bright sunbeam for one moment shed
Upon life's lonely way,
Why didst thou drop from my time?
Why didst thou drop from my time?
Why didst thou drop from my time?

O friend so true, O friend so good—
Thou and I, my golden head—
That gave you to all its charm—
What had I done, or what had I done,
That I should have lost you?
That I should have lost you?

And yet this heart that has been fed
With all that love and life has fed
That life has always fed
That life has always fed
That life has always fed
That life has always fed

It still left me the earthy place,
The friends I had in my embrace,
And gave to death, alas!
That only love had been lost,
That only love had been lost,
That only love had been lost

And when on that last day we rise,
Caught up from the earth and skies,
Then shall we hear our Lord
Say, "Thou hast done with death and death;
Thou hast done with death and death;
Thou hast done with death and death"

Still he left me the earthy place,
The friends I had in my embrace,
And gave to death, alas!
That only love had been lost,
That only love had been lost,
That only love had been lost

And when on that last day we rise,
Caught up from the earth and skies,
Then shall we hear our Lord
Say, "Thou hast done with death and death;
Thou hast done with death and death;
Thou hast done with death and death"

Still he left me the earthy place,
The friends I had in my embrace,
And gave to death, alas!
That only love had been lost,
That only love had been lost,
That only love had been lost

And when on that last day we rise,

CHASKA THURSDAY AUG. 29 1872.

Democratic County Convention.

The Democratic County Convention met at Watertown on Saturday last, and was called to order by the chairman of the County Committee, Robert Patterson. Whereupon, on motion, Fred E. Du Toit, of Chaska, was chosen Chairman and M. Kelly of Hollywood, Secretary.

Committees were appointed by the chair, upon credentials and resolutions. The following resolution was reported by the committee upon resolutions; and adopted unanimously.

Resolved, That while we fully appreciate the importance of the Convention to be held at Watertown on the 2d of Sept. next, we deem it proper to nominate to day the candidates of our choice for the offices of State Senator and County Auditor, and submit our action to said Watertown Convention with the full intention of acting in accordance with the wishes of said convention even to the extent of yielding to any just demand that they may make upon us.

The committee upon election of delegates to attend the State and Congressional Conventions, reported the following set of delegates.

C. H. Linean, Freeman James, F. E. Du Toit, Jos. Weismann, John Kerker, Robert Patterson and F. Oberle.

The following resolution was then unanimously adopted.

Resolved, That the delegates elected by this convention to attend the Congressional convention to be held at Farmington on the 3d day of Sept. next be and they hereby are instructed to cast their votes for L. L. Baxter as a unit in said Convention, and to use all honorable means to secure his nomination by said convention as member of Congress of this district.

COUNTY NOMINATIONS.

Leonard Streukens was then nominated by acclamation for the position of County Auditor, and Hon. C. H. Linean for State Senator.
